Student of Andijan state university

Abstract: For several years now, Uzbekistan has been at the forefront of developing countries, the main principle of which is the unity of the whole nation under the motto "Together we will create a new Uzbekistan". This article provides a comparative analysis of these legal frameworks.

Keywords: Concept, idea, legal consciousness, development, indicator.

I. Introduction

The large-scale reforms implemented in our country during the years of independence have become an important basis for strengthening national statehood and sovereignty, ensuring security and law and order, inviolability of state borders, rule of law, human rights and freedoms, interethnic harmony and religious tolerance. The decent life of our people has created the necessary conditions for the realization of the creative potential of our citizens [1].

The complete abandonment of the command-and-control system in the economy, the gradual implementation of market reforms and careful monetary policy have led to macroeconomic stability, high economic growth and inflation at the level of forecast indicators. and served to create ample opportunities and favorable conditions for the development of small business and private entrepreneurship, the farming movement. At the same time, an in-depth analysis of the development path of our country, the development of a completely new approach and principles for the more stable and dynamic development of our country in today's rapidly changing global market environment and growing competition in the context of globalization. 'requires a release [4].

II. Main part

In order to further increase the effectiveness of ongoing reforms, to create conditions for the comprehensive and rapid development of the state and society, to implement the priorities for the modernization of our country and the liberalization of all spheres of life:

Developed as a result of a comprehensive study of current issues of concern to the population and entrepreneurs, analysis of current legislation, law enforcement practices and best international practices, as well as a broad public discussion, and envisages the following in 2017-2021 [6]: -To approve the Strategy of actions on five priority directions of development of the Republic of Uzbekistan (further - the Strategy of actions) according to appendix 1: -deepening democratic reforms aimed at improving state and society building and further strengthening the role of parliament and political parties in modernizing the country, public administration reform, development of the organizational and legal framework of the civil service, improving e-government, improving the quality and efficiency of public services , implementation of public control mechanisms, strengthening the role of civil society institutions and the media;

-strengthening the guarantees of true independence of the judiciary and reliable protection of the rights and freedoms of citizens, aimed at ensuring the rule of law and further reform of the judicial system,

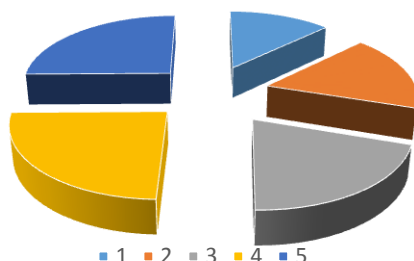

administrative, criminal, civil and economic legislation, the fight against crime and delinquency increase the efficiency of the access system, fully introduce the principle of litigation in court, radically improve the quality of legal aid and legal services [3];

Continue institutional and structural reforms to strengthen macroeconomic stability and maintain high economic growth, increase the competitiveness of the national economy, modernize and accelerate the development of agriculture, reduce state participation in the economy, aimed at further development and liberalization of the economy protection of private property rights and strengthening its priority position, stimulation of small business and private entrepreneurship, complex and balanced socio-economic development of regions, districts and cities, improvement of investment climate in foreign sectors of the economy active involvement;

Consistent increase of employment and real incomes of the population aimed at the development of the social sphere, improvement of the system of social protection and health care, increasing the socio-political activity of women, construction of affordable housing, road transport, engineering - Implementation of targeted programs for the development and modernization of communications and social infrastructure, development of education, culture, science, literature, art and sports, improvement of state youth policy[2];

Ensuring security, interethnic harmony and religious tolerance, strengthening the independence and sovereignty of our state, aimed at pursuing a well-thought-out, mutually beneficial and practical foreign policy, security, stability and harmony around Uzbekistan. formation of a climate of solidarity, strengthening the international prestige of our country.

Legal analysis of the distribution and implementation of work by years (2017-2021)

In 2017-2021 the state program on the implementation of the strategy of action of the Republic of Uzbekistan in five priority areas in the “Year of active investment and social development” also focuses on the development of the foundations of civil society. Proceeding from this state program, in order to deepen the democratic reforms in our country and to further strengthen the role of the chambers of the Oliy Majlis, political parties in the modernization of the country, the chambers of the Oliy Majlis carry out activities in the direction of norm creativity and parliamentary control implementation of the procedure of approval of members of the Cabinet of Ministers by the councils of relevant people’s deputies of the heads of state bodies of the Oliy Majlis, region, district and city, improvement of information and analytical activities in the implementation of parliamentary control over the budgets of the state budget and state target funds of the Oliy Majlis, systematization, a number of priority tasks are set, such as implementation of projects of the “Electronic parliament” system aimed at ensuring the openness of the activities of representative bodies of power, as well as improving the provision of electoral rights of citizens [8].

According to the current period “a deep analysis of the path of development of our country has passed today, taking into account in all respects the fact that the conjuncture is changing in the world market and competition is growing, on this basis, a completely new strategic approach and principle for the development of our state more stable and accelerated pace taking, the adoption of the decree of the president of the Republic of Uzbekistan ”on the strategy of action for the further development of the Republic of Uzbekistan for 2017-2021” with the aim of implementing the most important priority directions for the modernization of our country initiated a new stage of development of civil society in the country. The strategy of action on five priority areas of development of the Republic of Uzbekistan was approved in 2017-2021, which was developed as a result of a comprehensive study of the current issues of thinking of the population and entrepreneurs, analysis of the current legislation, the practice of law enforcement and advanced foreign experience, as well as a broad public discussion [6].

III. Conclusion

In conclusion, it should be noted that Strategies for action in five priority areas Development of the Republic of Uzbekistan in 2017 It is an important program in the construction of 2021 and all its legal principles have been considered, civil society in Uzbekistan in decision-making democratic values in public administration and society Implement the planned activities allows you to strengthen your action strategy Fundamentals of civil society in our country ensuring public oversight of governance state and society.
